Dear Sir/Madam.

Re: R.G.Gregson Constructions Pty Ltd

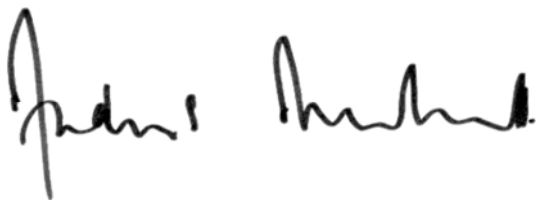

R.G.Gregson Constructions, led by Greg Godby, have built three of our projects over the last 18 months. Over the course of these three projects (2 mixed-use residential/commercial and one commercial) we have found Greg and his team to be consummate professionals.

The fact that the three jobs we have worked on with Greg are all in the one block and followed each other consecutively tells the whole story. Greg and his team clearly inspired a sense of confidence in each of these Owners, through his handling not only of the building works and materials handling on a busy street, but also his communication with the neighbours at all times throughout the process

Greg is an excellent communicator, good with paperwork, delivery and follow through. The team behind Greg are very supportive, competent and polite.

We would happily work with Greg on future projects.

Yours sincerely,

Andy Macdonald
(architect 7333)
